Architectural Products for
**Healthcare
Spaces.**

We're obsessed with making sure patients, visitors and staff are safe and healthy. Our products not only protect the appearance of healthcare spaces, but also create healing environments that promote the best patient outcomes.

They're not *just* architectural products.

They're direction definers.

Room revitalizers.

Peace preservers

Cab curators.

Dirt defiers.

Ding diminishers.

Masters of movement.

**They're architectural wonders
for every healthcare space,
made all in one place.
Direct from our floors to your doors.**

Bring wall protection into your Elevator Interiors!

They may be small spaces, but don't let size fool you. Elevators make a big impression. They get used by a lot of people which means they take a lot of abuse. Good thing we're wall protection experts who know how to prevent damage while keeping interiors looking great.

durable panels

Our elevator panels are made with Palladium® Rigid Sheet Wall Protection material, making them extremely durable. Choose from standard panel configurations that you can personalize with different finishes and custom branding.

-  Standard Solid Colors
-  Patterns
-  Woodgrains
-  Metallics
-  Imagery + Logos
-  Stainless Steel
-  Ricochet® Flexible Wall Protection

ceiling + lighting

Choose from a variety of ceiling and lighting options to create a comfortable, well-lit elevator experience.

hand + crash rails

Available in Standard #4 Brushed Stainless Steel with choice of straight or bent ends.

Add Ricochet® Flexible Wall Protection to your panels for the stylish look of premium wallcovering with extreme durability.

They're not just Privacy Systems.

They're peace preservers.

Privacy isn't just about providing cover. It's also about giving people the protection they need to feel comfortable and safe. With Cubicle Curtain + Track options that create warm, calm and clean environments, you can craft a space where people feel truly protected.

Products Shown: Shield® by Panaz Cubicle Curtain

formatrac®

Formatrac® Bendable Cubicle Track easily bends by hand on-site for simple installation and can accommodate virtually any design. Independent testing has shown significant decibel reduction, making it the perfect solution for your healthcare space.

shield by panaz®

For environments that require 24/7 maintenance, count on Shield by Panaz®. Shield fabrics are antimicrobial to inhibit the growth of mold and mildew. They're also liquid repellent and highly resistant to most stains, making them ideal for cubicle curtains and shower curtains.

EZE-Swap®

EZE-Swap® is a snap panel system that allows you to quickly change out cubicle curtains without needing to take the entire curtain off the track. Simply unsnap the panels from the mesh to remove the curtain for laundering and replace it with maintenance stock.

-  Program Fabrics
-  Disposable Fabrics
-  Shield Fabrics

disposable curtains

For areas that require frequent curtain change outs, disposable curtains are a great option. Not only do they cost less than traditional fabric curtains, but they save you time and money associated with laundering.

shower curtains

Our shower curtains are custom fabricated to your specific dimensions. Choose from our heavy-duty vinyl Super Bio Stat™ curtains, polyester Chalet fabrics with an antimicrobial finish, or our designer-friendly Shield fabrics that are antimicrobial, stain + liquid resistant.

-  Shield Fabrics
-  Chalet Fabrics
-  Super Bio Stat™ Fabrics

They're not just Commercial Window Treatments.

They're room revitalizers.

Privacy and comfort is essential for your patients. We cover those needs with our WT Shades® Commercial Window Treatments. Shades can be modified with different styles, performance properties and levels of openness to enhance comfort and complement scenery and natural light.

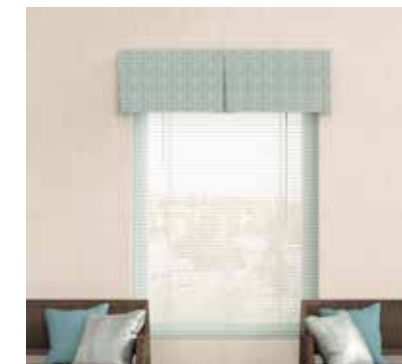

manual cordless shades

Cordless, low-maintenance shades with the durability to stand up to multiple users. With optional side tracks for added privacy and stability, this light, cordless shade can be easily adjusted and set with the touch of a finger.

motorized + automated shades

The perfect blend of fit, form and function, our motorized and automated shades are expertly engineered to be easily integrated with most building management and automation systems.

top treatments

Enhance your windows with Top Treatments. Coordinate with your drapery, choosing from our Standard and Exclusive Fabric Programs. We can even help you source the perfect fabric from one of our many textile partners.

Inpro Exclusive Program
Fabrics

Standard Program Fabrics

They're not just Washroom Systems.

They're dirt defiers.

Clean and safe. That's the impression a bathroom should give. Made of Prism™ Solid Surface, our washroom systems inhibit the growth of mold and mildew so that shower areas, restrooms, operating rooms and other sterile environments can maintain the highest standards in hygiene.

showers

shower bases

decorative shower walls

Products Shown: ADA-compliant 60" x 30" Roll-in Shower Base, Custom Vertical Decorative Shower Walls and Trim, Recessed Toiletry Shelf

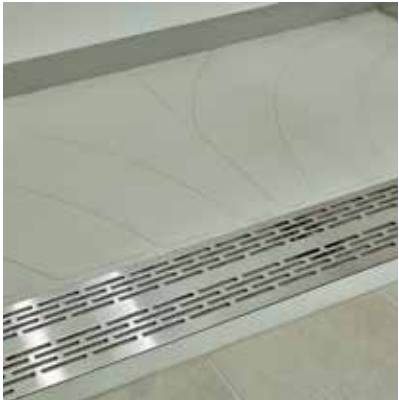

shower walls

Surround your shower + restroom areas with Prism™ Solid Surface or Continuum™ Shower Walls. Use our smooth panel for a traditional look or decorative panels to get the look of tile without the grout.

[Need shower rods and curtains?](#)
[Visit \[inpro.com\]\(#\) to explore a variety of options.](#)

-  Prism™ Solid Surface Shower + Wall Cladding
-  Continuum™ Shower + Wall Cladding

shower bases

Our Shower Bases are made from our Prism™ Solid Surface material and are solid poured instead of foam filled for added durability and increased weight support. Because we manufacture our bases in-house, we also have the ability to customize the drain location to accommodate existing plumbing conditions or new construction project needs.

-  Solid Colors
-  Small Particulate
-  Medium Particulate

toilet partitions

Choose between 3 mounting styles of restroom and shower rooms.

Floor Mounted Overhead-Braced - Does not require ceiling mounting. Shown above.

Floor-to-Ceiling - Supported at floor, ceiling, and back wall.

Ceiling Hung - Does not require components to be mounted to the floor. Must be considered in early construction.

-  Small Particulate
-  Medium Particulate

They're not just Architectural Signs.

They're direction definers.

With lives on the line, people need to know where they are going and how to get there. We obsess about creating and installing architectural signage people can rely on to navigate your building. With a variety of design possibilities, expert advice and professional installation, we lead the way when it comes to signs.

They're not just Expansion Joint Systems.

They're masters of movement.

Our seamless Expansion Joint Systems allow for the natural shifting and movement of buildings and are engineered to handle every condition. Prevent the spread of smoke and fire with our Fireline® Fire Barriers and stand up to harsh conditions with our parking protection. Protect your buildings and yourself from liability and let one of our Expansion Joint Experts find the perfect solution for your structure.

601 Expansion Joint System

428 Floor System with Flooring Infill | 612 Interior Pleated Seal

300 wall system

801 Cover Plate System | 811 Wall System | 114 Wall + Ceiling System

Products Shown: 801 Floor Expansion Joint System, 113 Wall + Ceiling System

601 system

The 601 hinged wall expansion joint system can be infilled with adjacent architectural system to disguise the exterior expansion joint such as glazing, metal panels, stone, brick and more.

fireline® 520

Designed with installation in mind, the Fireline® 520 system installs 3x faster than other products on the market. This fire barrier installs with consistency and efficiency.

428 series

The 428 floor expansion joint series is a heavy duty, seismic capable expansion joint system that uses a centering bar to accommodate the joint movement beneath the coverplate. The 428 accepts flooring up to 3/8" (10mm) thick to reduce the system's sightline.

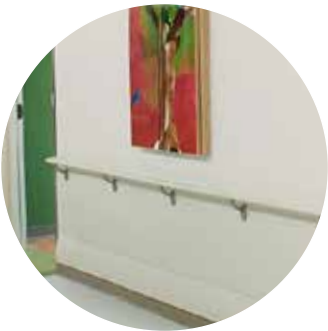

Products that promote clean!

Cleanliness is one of the most important considerations for any healthcare setting. But, keeping a facility clean and beautiful at the same time can be a challenge when using harsh disinfectants.

These products help you achieve a cleaner, more durable and resilient space.

SureContact® Handrails

SureContact® Handrails use Sanitized® Zinc Pyrithione non-leaching antimicrobial technology to inhibit the growth of mold and mildew.

Palladium® Rigid Sheet Wall Protection

(Includes profiles such as corner guards + handrails) Palladium® provides superior impact resistance to keep your walls safe from damage, so you can say goodbye to endless repairs! Applications also include ADA Signage and Elevator Interiors.

Shield by Panaz® Fabric

Shield fabrics weave together beauty and performance for shower curtains, bedspreads, cubicle curtains and window treatments that stay looking great in the most challenging environments. They are antimicrobial to inhibit the growth of mold and mildew and also stain and liquid repellent to cut down on the need for laundering.

Super Bio Stat™

This fabric is a heavy-duty vinyl that is specially formulated with a protective coating that is bacterial and wear resistant.

Prism™ Solid Surface

Solid Surface offers sleek finishes for shower bases, surrounds and partitions that is non-porous and inherently antimicrobial to prohibit mold and mildew.

Ricochet® Flexible Wall Protection

Ricochet combines the look of premium wallcovering with the durability of rigid sheet wall protection so your walls can make an impact and take an impact. Ricochet is durable and resilient against chemicals, stains and graffiti.

Stainless Steel

Stainless Steel provides unmatched protection with a sleek appearance for the walls in your facility. This material is perfect for kitchens, cafeterias, corridors, operating rooms, back-of-house and other high-traffic areas.

obsessed with protecting buildings®

How they look. How they function.
And how they protect the health and safety
of the people who use them every day.

That's why we make hundreds of architectural
products all under one roof and work tirelessly to
make sure you and your buildings succeed.

Yeah, we are obsessed. But we wouldn't
have it any other way.
